

INTEGRATED MANAGEMENT SYSTEM POLICY

We aim to provide consistently superior thermoplastic products and technical services to the worldwide Orthopaedic Device manufacturing Industry. This will be achieved through our commitment to operate beyond compliance to customer, regulatory and legal requirements. We will set challenging objectives to engage our organisation in continuous improvement in performance that recognises legal, legislative industry and other requirements for the combined Quality, Environmental and OHSAS requirements.

•Our Customer

•Quality

•Environment

•Health and Safety

To demonstrate this responsibility we are committed to four specific areas for objectives. The realisation therefore focuses on the training in, implementation and maintenance of an integrated management system and the continuous assessment and improvement of its effectiveness

Our Customer

Continually improve existing systems and services thus being able to provide products that constantly meet or exceed customer requirements.

Provide suitable installations, premises and infrastructure in Orthoplastics Ltd to create a facility to manufacture medical products in a controlled and efficient environment that meets Industry standards and applicable legal requirements.

Quality Requirements

Our objective is to demonstrate our commitment to the provision of materials / products to meet the needs and expectations of our customers, and to comply with legal, regulatory and industry related standards. We are committed to continual improvement of our management system and performance. To demonstrate this commitment we will operate an integrated management system in compliance with ISO9001 and ISO13485. Orthoplastics will effectively assess associated risk to business, product and process and action accordingly.

Environmental Requirements

Our objective is to demonstrate our social responsibilities by complying with legal requirements in respect to the Environment. We are committed to continual improvement in the prevention of pollution. Orthoplastics will contribute to the maintenance of the environment by the optimisation of energy usage, reduction in waste disposal and any activity that positively impacts Orthoplastics effect upon the environment. To demonstrate this commitment we will operate an integrated management system in compliance with ISO14001 and quantify risk through the aspects process.

Health and Safety Requirements

Our objective is to demonstrate our social responsibilities by complying with legal requirements in respect to Occupational Health and Safety. We are committed to prevention of injury and ill health via continual improvement in OHSAS management and OHSAS performance. To demonstrate this commitment we will operate an integrated management system in compliance with BS OHSAS 18001 and quantify risk through the aspects process.
